View is a technology company that manufactures smart building products that are purportedly designed to improve people's health, productivity, and experience while reducing energy consumption.

On March 8, 2021, CF II, a special purpose acquisition company, and View combined via a Business Combination with View as the surviving, public entity.

On August 16, 2021, after the market closed, View announced that it "began an independent investigation concerning the adequacy of the company's previously disclosed warranty accrual."

On this news, the Company's share price fell \$1.26, or over 24%, to close at \$3.92 per share on August 17, 2021, on unusually heavy trading volume.

The complaint filed in this class action alleges that throughout the Class Period, Defendants made materially false and/or misleading statements, as well as failed to disclose material adverse facts about the Company's business, operations, and prospects. Specifically, Defendants failed to disclose to investors: (1) that View had not properly accrued warranty costs related to its product; (2) that there was a material weakness in View's internal controls over accounting and financial reporting related to warranty accrual; (3) that, as a result, the Company's financial results for prior periods were misstated; and (4) as a result, Defendants' statements about its business, operations, and prospects were materially false and misleading and/or lacked reasonable basis at all relevant times.
